

## Biography

Jon W. Slangerup, MBA, BSc  
Chief Executive Officer, Solar Integrated Technologies

Jon Slangerup joined Solar Integrated Technologies as Chief Executive Officer and Director in February 2005. Solar Integrated, listed on the London AIM exchange, is a pioneer and global leader in the design, manufacture and marketing of building integrated photovoltaic roofing systems incorporating state-of-the-art thin film photovoltaic and energy management technologies. Prior to joining Solar Integrated, Jon was President, Chief Executive Officer and Director of Stuart Energy Systems since 2001, a company listed on the Toronto stock exchange. Stuart Energy is a global leader in the development and provisioning of proprietary on-site hydrogen infrastructure systems for industrial, transportation and distributed energy applications. Under his leadership, Stuart Energy increased sales by nearly 400 percent by rapidly expanding the company's reach into North America, Europe and Asia, while establishing the dominant brand and market share position within the industry. In January 2005, the Company was acquired by Hydrogenics at a significant share price premium. Prior to his work with Stuart Energy, Jon was Chairman and Chief Executive Officer of Electron Economy, a private start-up company engaged in developing and marketing supply chain management software. From 1980 to 2000, Jon enjoyed a long and successful career with FedEx, serving in a diverse range of executive assignments. During his last seven years with the company, Jon served as President of FedEx Canada, a company he helped establish as Canada's premier international courier service. Jon is an active leader in the sustainable energy industry, serving on the boards of the California, Florida and New Mexico Hydrogen Business Councils, as well as on Governor Schwarzenegger's Hydrogen Highway Implementation Advisory Panel and as a delegate to the International Partnership for the Hydrogen Economy.
